Dear Jack,

I read the revised manuscript of Yuki Hirota, Michio Katsurabuchi et al. All of the criticisms I made of the earlier manuscript have been incorporated in the changes made - and I feel that the ms. is now suitable for PNAS.

I hope you are willing to communicate it to PNAS, and this letter should be enough for my review. (perhaps together with my earlier letter) I will contribute mine on the same subject at the same time. Best wishes,

Jack Strominger
